Professional Experience

Mike Mitchell has worked in the Construction, Demolition, and Abatement industries for over forty years. Mike is a business leader who has ownership in multiple firms, including safety training, abatement, demolition, and sitework.

Since the early eighties when asbestos abatement became a regulated industry Mike has been involved in some of the most significant projects throughout the United States. He is actively involved in every aspect of ESA's business, from management to estimating.

Mike works directly with contractors and clients from the Federal Government, including the Corps of Engineers, the GSA, the US Airforce, US Army and Department of Energy. Additionally, he works on a daily basis with the Union Pacific Railroad, Burlington Northern Santa Fe, AMI Environmental, EMR Environmental, as well as multiple other clients.

Mike's Credentials:

- EPA AHERA Certified
- Hazwoper Certified
- Environmental Training and Consulting

Highlights of Mike's Career

- Terra Chemical Explosion (1996) \$5million. Emergency response cleanup to this chemical explosion, which caused a major asbestos spill in Sioux City, Iowa.
- Hurricanes Ivan, Charley, and Katrina. Over \$15 million. Emergency response to these Hurricanes, including major spill cleanups and 'blue roofing' activities.
- Abatement of Rail Sites in over 30 states: Over \$12 million and over 700 projects.
- Main Post Office in Sioux Falls, SD (2008): \$ 2 million
- Stapleton International Airport Abatement and Demo, Denver, CO: \$19 million
- Sioux Valley Hospital System Abatement, Sioux Falls, SD: over \$10 million
