To whom it may concern,

June 7, 2021

I want to take time out of my schedule to commend Iowa Demolition and EIS for the outstanding contracting work they have been performing for Daybreak Foods, Inc.

As Capital Projects Manager for Daybreak Foods, Inc., I have worked with several demolition contractors around the Midwest, and have recently been blessed to have a solid performer in Iowa Demolition for both our Graettinger, IA and Eagle Grove, IA sites.

Mike Berst, along with the entire Iowa Demolition Team have set the new gold standard for Daybreak's demolition expectations. Whether it is their approach to project safety, timely mobilization, site organization, cleanliness, finishing ahead of schedules, or just Iowa Demolition's professional culture, they have been a key player in the ongoing success of our projects.

The real testament to good contracting is repeat business. I anticipate using Iowa Demolition's skillsets in future Daybreak Foods projects in Iowa and surrounding states. I know I will not be disappointed!
